The following action is in response to the amendment and terminal disclaimer received June 18, 2007.

Allowable Subject Matter

Claims 1 and 2 are allowed.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance:

The prior art of record fails to show or render obvious a parking device as defined in claim 1 wherein, when the operation of the change lever is detected by the parking operation detection means, the control means sends a control signal to the speed-change actuator based on a detection signal from the vehicle speed sensor to bring the transmission into engagement with a gear position that corresponds to the traveling speed of the vehicle.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Response to Amendment

The amendment received June 18, 2007 overcomes the objections to the Abstract set forth in the previous Office action. Accordingly, the objections are withdrawn. Similarly, the amendment corrects a misspelling on page 10 of the specification and overcomes the objection to the disclosure set forth in the previous Office action. Thus, the objection is withdrawn.

The terminal disclaimer received June 18, 2007 has been approved and thus overcomes the nonstatutory obviousness-type double patenting rejection set forth in the previous Office action. Accordingly, the rejection is withdrawn.
